# What's New **LODI ACADEMY**

1.21.2022

## Greetings Lodi Academy Families!

As we head into the second semester some of our students are focusing even more on what comes next! One of the essential aspects to our mission here at Lodi Academy is preparing our students for next steps in life after high school.

This week Lodi Academy hosted a workshop for students and parents on how to plan financially for college. Dr. Edelbach, the presenter from Pacific Union College, shared a wealth of information on how parents and students, Sophomores to Seniors, can plan to make any college affordable. Be it community college to a 4-year university, there is free money out there, through scholarships, grants and combinations thereof, waiting to be claimed!

**Applications for all scholarships and grants begin with completing the FAFSA form. The FAFSA is completed online and should be done before March because many of the available grants have an application deadline of March 3rd. If you are a Senior, do not let this opportunity slip by!**

It is critically important that this deadline is not missed. For more information, contact Mr. Solis.

One of the highlights each year for students is the Northern CA Conference Freshmen/Sophomore Bible Conference Retreat known as Freshmore. This year it will be happening at Pacific Union College in Angwin, CA. The original date was February 4-6, but that event has been postponed and moved to March 11-13. We encourage all Freshmen and Sophomores to attend. Lodi Academy is supplementing \$40 toward the expense for each student so if you sign up for the early it will be \$59 instead of the \$99. This will be a fun, Spirit-filled weekend that our 9th and 10th graders do not want to miss!

**PACIFIC UNION COLLEGE**  
March 11-13, 2022

*Sponsored by NCC Youth Department*

**BE THE SURGE**  
FRESHMAN/SOPHOMORE RETREAT

**ALLOWING THE WORLD TO SEE GOD'S CHARACTER REFLECTED IN YOU!**

# ACADEMICS

This week in Geometry, Dr. Cooper's class integrated art into their math studies! The students completed two separate pieces:

1) Students used tangram shades to create a piece of art with an inspirational thought and associated Bible verse which went on the math Instagram account.

2) Students then made parallelograms and polygon art pieces which was fun for students to then count how many of each shape they used.

Follow @mrs\_cooper\_einsteins for more of what is going on in our math classes.
